ZCS, connessi al futuro

IDEE E SOLUZIONI DELL'ERA DIGITALE

Zucchetti Centro Sistemi (ZCS) was founded in 1985 by **Fabrizio Bernini**, who now serves as the CEO. Through his innovative vision, the company rapidly gained a foothold in the global markets of robotics, automation and renewable energy.

Today, ZCS is renowned for its innovative **SMART & GREEN** solutions that integrate the most advanced technologies.

ZCS consists of **five Business Units** (software, automation, healthcare, robotics and energy renewable) that meet the need to diversify and extend the know-how acquired in the design of management software to different and complementary areas, aiming to deliver technological excellence in the areas of information technology, digitalisation and mechatronics.

INNOVATION AS CULTURE

The courage to design and create products that do not exist yet, but that could improve and simplify the daily lives of consumers, as well as optimise the efficiency of processes. Artificial intelligence, Cloud, Internet of Things, Big Data, Advanced Automation.

PEOPLE

Driven by shared corporate values such as creativity, enthusiasm, passion, job responsibility, ethics and respect for people.

SUSTAINABILITY

Technology and environment as a union to be explored and advanced with conviction. Economic, environmental and social sustainability.

GROUP

»**ZCS** belongs to the **Zucchetti Group,** which has over 8,000 employees and 700,000 customers *(2022 data)

ZCS FACTS AND FIGURES

»**500** people » **130** patents » **17** national and international awards and recognitions
» **5** business units

ZUCCHETTI Centro Sistemi

GREEN INNOVATION

AUTONOMY AND ENERGY SAVINGS FOR A SUSTAINABLE ENVIRONMENT

Distributes innovative energy-saving solutions for people and companies. Photovoltaic inverters, efficient storage systems, electric vehicle charging stations and monitoring systems designed to maximise energy independence in residential, commercial and industrial settings.

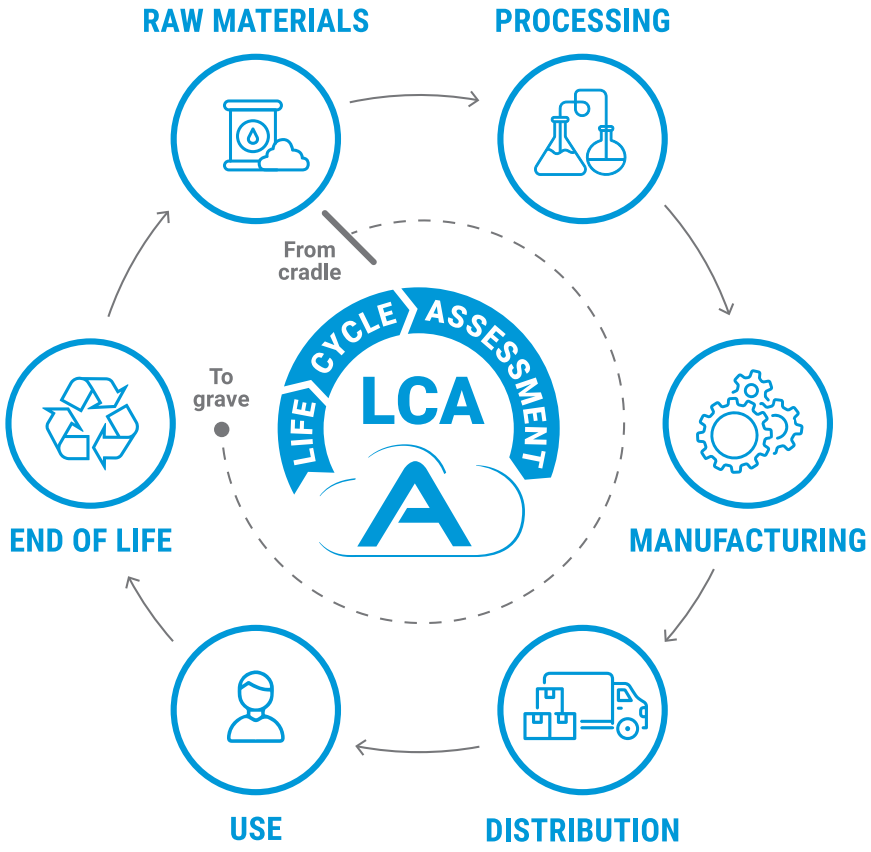
LCA

Life **C**ycle **A**ssessment of **ZCS Azzurro**

ZCS Azzurro has always been dedicated to ensuring the excellence of its products and promoting environmental sustainability. For this reason, the company actively analyses its solutions, focusing on improving their efficiency, reparability and recyclability.

To achieve these results, aimed at optimising processes and improving energy efficiency, ZCS Azzurro has adopted the use of the **Life Cycle Assessment (LCA)**. This tool is widely recognised as the most comprehensive method for assessing the environmental impact of products and services.



Excellent products

Efficient resources

Environmental **awareness**

Sustainability

Single-phase hybrid **inverter**

CO_2 EMITTED during production **1,589 Kg**

CO_2 PAYBACK TIME **8 MTHS**

CO_2 SAVED* **51,906 Kg**

Equivalent to **303,856** km travelled by a petrol car

100-125 KTL three-phase photovoltaic **inverter**

CO_2 EMITTED during production **7,054 Kg**

CO_2 PAYBACK TIME **30 Days**

CO_2 SAVED* **1,653,990 Kg**

Equivalent to **9,682,414** km travelled by a petrol car

5000-20000 ZCS three-phase hybrid **inverter** & ZCS Azzurro HV battery

CO_2 EMITTED during production **2,625 Kg**

CO_2 PAYBACK TIME **5 MTHS**

CO_2 SAVED* **144,183 Kg**

Equivalent to **159,175** km travelled by a petrol car

* Emissions prevented throughout the lifetime of the system. The calculation excludes emissions generated by the production of power by photovoltaic panels.

Smart solutions for a sustainable world

With a foundation built on extensive experience and smart technologies, ZCS provides solutions for residential, commercial and industrial applications that enable continuous system monitoring for optimised performance, with a focus on enhancing energy efficiency and sustainability.

ZCS Azzurro also provides a comprehensive range of consultancy and support services. From the initial design phase to after-sales assistance, the company ensures a consistently high level of performance and guides users throughout their new energy transition journey.

RELIABLE
High-quality components and 5 or 10 year ZCS warranty

USER-FRIENDLY
Thanks to the multifunction graphic display

SIMPLE
Quick installation and configuration

Inverter di stringa **monofase**

The **ZCS Azzurro single-phase inverters** are the ideal solution for small photovoltaic systems in residential or commercial buildings. Available in sizes from 1 to 6 kW, they are small, easy to manage and easy to install. The wide range of input makes them easy to configure and suitable for any type of need, both for new installations and for retrofitting existing ones. The alphanumeric display allows you to consult the inverter data, while Wi-Fi connectivity allows remote monitoring anytime and anywhere.

ZCS AZZURRO TECHNOLOGY

› Performance optimisation
› Wi-Fi integration on ZCS platform for stable, effective and intelligent connectivity

MAXIMUM ENERGY YIELD

› Stable efficiency in all working conditions
› Rapid and accurate MPPT algorithm

FLEXIBLE, COST-EFFECTIVE AND EASY-TO-INSTALL SOLUTION

› Protection class of IP65
› “Plug & Play” AC and DC connections
› Wireless communication with integrated Web Server
› ENEL Autotest in standard or fast versions
› Updates and diagnostics via USB

RELIABILITY STRENGTH AND FLEXIBILITY

› Rust-proof, corrosion-proof and UV-proof aluminium exterior casing
› Natural ventilation cooling
› Fast and flexible management of function parameters
› Simple and user-friendly monitoring

SMART GRID MANAGEMENT

› Dynamic management of grid feed-in
› “Zero Grid Feed-in” functionality *
› Remote control of the deliverable active/reactive power limit

* Possible with the use of a current sensor (ZST-ACC-TA)

IDEAL FOR RETROFITTING

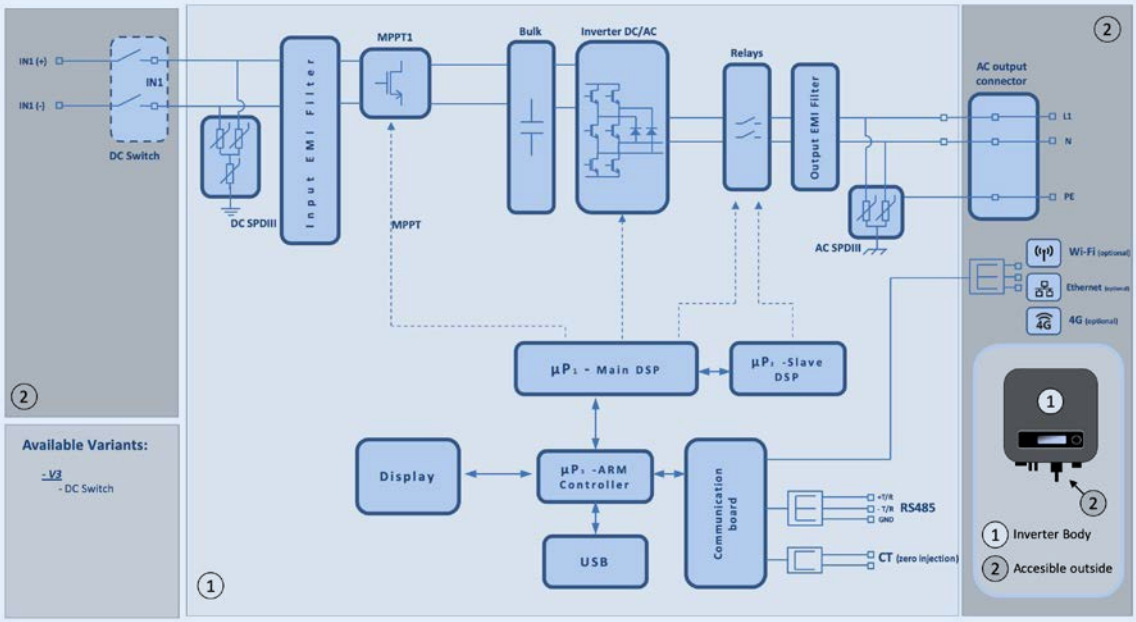
› Compact size
› Simple and user-friendly installation and configuration

1PH 1100TL-V3/1PH 3300TL-V3

Single-phase string inverter

- Maximum yield 97.7%
- Single MPPT channel
- Fast and safe installation with all required parts included
- Ultra compact
- 5 or 10 year ZCS warranty
- Wide input operating range from 50V to 550V

BLOCK DIAGRAM



TECHNICAL DATA	1PH 1100TL-V3	1PH 1600TL-V3	1PH 2200TL-V3	1PH 2700TL-V3	1PH 3000TL-V3	1PH 3300TL-V3
DC Input data						
Typical DC power*	1210W	1760W	2420W	2970W	3300W	3630W
No. of independent MPPTs / No. of strings per MPPT	1/1					
Maximum DC input voltage	500V				550V	
Start-up voltage	70V					
Nominal DC input voltage	360V					
MPPT DC voltage range	50V-500V				50V-550V	
DC voltage range at full load	110V-450V	150V-450V	200V-450V	250V-500V	275V-500V	300V-500V
Maximum input current for each MPPT	12A					
Maximum absolute current for each MPPT	15A					
AC Output data						
Rated AC power	1100W	1600W	2200W	2700W	3000W	3300W
Maximum AC power	1100VA	1600VA	2200VA	2700VA	3000VA	3300VA
Maximum AC current	5.3A	7.7A	10.6A	13A	14.5A	16A
Connection type/Rated grid voltage	Single-phase L/N/PE / 220V,230V,240V					
Grid voltage range	180V~276V (according to the local grid standards)					
Rated grid frequency	50Hz/60Hz					
Grid frequency range	45Hz~55Hz / 54Hz~66Hz (according to the local grid standards)					
Total harmonic distortion	<3%					
Power factor	1 (programmable +/-0.8)					
Active power adjustment range (settable)	0~100%					
Grid feed-in limit	Feed adjustable from zero to nominal power value**					
Efficiency						
Maximum efficiency	97.5%				97.7%	
Weighted efficiency (EURO)	96.9%				97.2%	
MPPT efficiency	>99.9%					
Consumption at night	<1W					
Protections						
Internal interface protection	Yes					
Safety protections	Anti-islanding, RCMU, Ground Fault Monitoring					
Reverse polarity protection DC	Yes					
DC circuit breaker	Integrated					
Overheating protection	Yes					
Overvoltage category/Protection class	Overvoltage Category III / Protection class I					
Integrated dischargers	AC/DC MOV: Type 3 standard					
Standard						
EMC	EN 61000-6-1/3, EN 61000-3-2/3					
Safety standard	IEC 62116, IEC 61727, IEC 61683, IEC 60068-1/2/14/30, IEC 62109-1/2					
Grid connection standard	Connection certificates and standards available at www.zcsazzurro.com					
Communication						
Communication interfaces	Wi-Fi/4G/Ethernet (optional), RS485 (proprietary protocol), USB					
Additional inputs or connections	Input for current sensor connection					
General data						
Allowable ambient temperature range	-30°C...+60°C (power limit above 45°C)					
Topology	Transformerless					
Environmental protection class	IP65					
Allowable relative humidity range	0%.....95% non-condensing					
Maximum operating altitude	4000m					
Noise level	< 25dB @ 1mt					
Weight	5.5 kg				6.3 kg	
Cooling	Forced fan convection					
Dimensions (H x L x D)	303mmx260.5mmx118mm				321mmx260mmx131.5mm	
Data monitoring	LCD Display + APP					
Warranty	5 or 10 years (NB: the extended warranty can be obtained by registering on the EXTENDED WARRANTY section of the zcsazzurro.com website)					

* The typical DC power does not represent a maximum applicable power limit. The online configurator available at www.zcsazzurro.com will provide any applicable configurations.
** Possible by connecting a current sensor (ZST-ACC-TA) or using a specific meter

1PH 3000TLM-V3/1PH 6000TLM-V3

Single-phase string inverter

- Maximum yield 98.4%
- Dual MPPT channel
- Fast and safe installation with all required parts included
- Ultra compact
- 5 or 10 year ZCS warranty
- Wide input operating range from 80V to 550V

BLOCK DIAGRAM

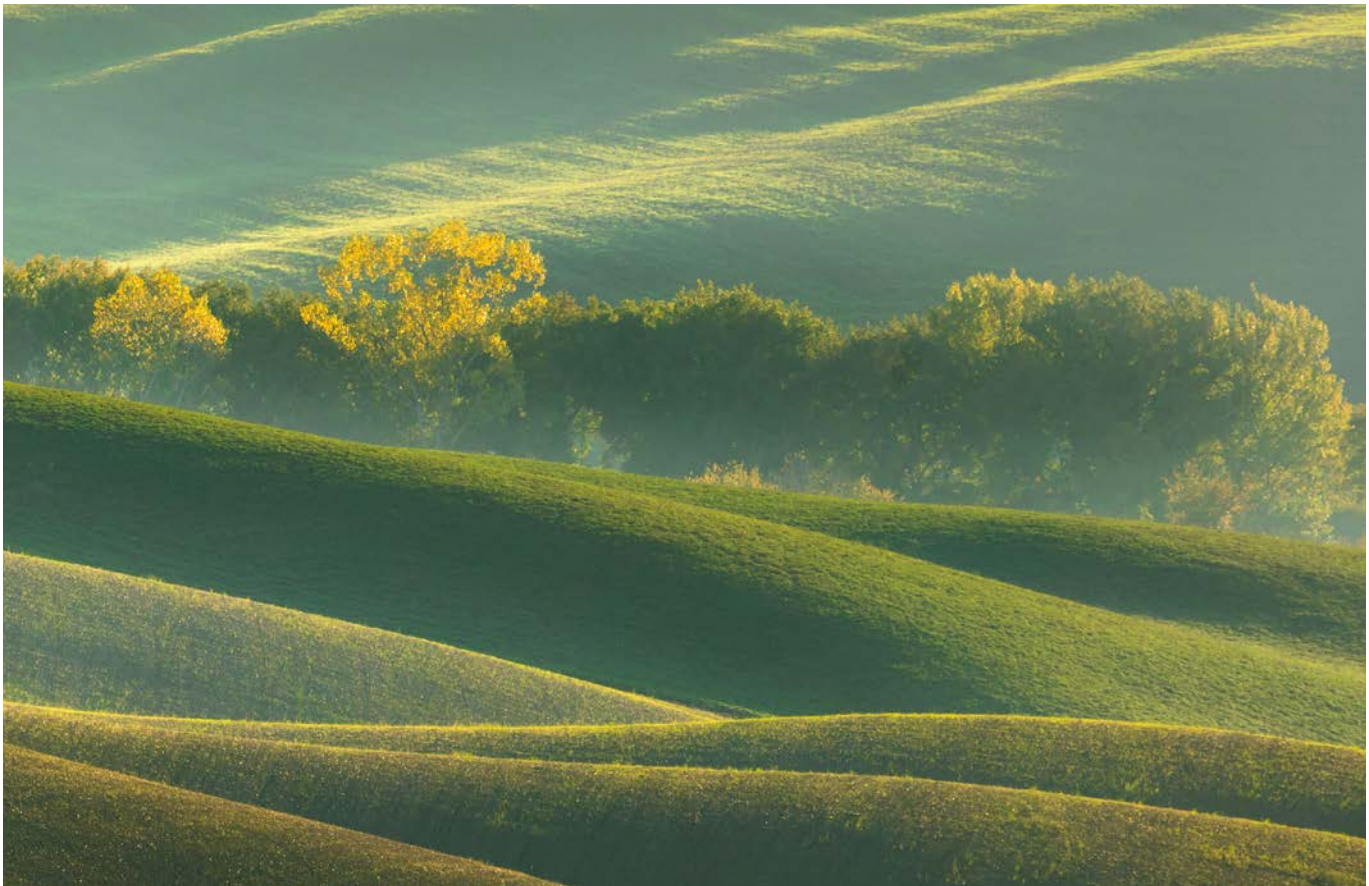
AZZURRO ZCS



Three-phase string **inverter**

The **ZCS Azzurro three-phase inverters** are the best solution for medium-size photovoltaic systems to be installed in commercial and industrial buildings.
The advanced technology developed by ZCS makes the Azzurro three-phase inverters efficient, versatile and highly functional. Available in sizes from 3.3 to 350 kW, they are easy to configure, safe and robust and able to adapt to every type of need, for both new installations and retrofitting of existing ones.

ZCS AZZURRO TECHNOLOGY

› Performance optimisation
› Wi-Fi integration on ZCS platform for stable, effective and intelligent connectivity

MAXIMUM ENERGY YIELD

› Stable efficiency in all working conditions
› Rapid and accurate MPPT algorithm

FLEXIBLE, COST-EFFECTIVE AND EASY-TO-INSTALL SOLUTION

› Protection class of IP65
› Power Management Unit

RELIABILITY STRENGTH AND FLEXIBILITY

› Rust-proof, corrosion-proof and UV-proof aluminium exterior casing
› Flexible and user-friendly management of functional parameters
› Topology without transformer

SMART GRID MANAGEMENT

› Dynamic management of grid feed-in
› Remote control of the deliverable active/reactive power limit

IDEAL FOR RETROFITTING

› Compact size
› Simple and user-friendly installation and configuration

3PH 3.3KTL-V3/3PH 12KTL-V3

Three-phase string inverter

- Maximum yield 98.5%
- Dual input section with independent MPPTs
- Updates and diagnostics via USB
- 5 or 10 year ZCS warranty
- “Zero Grid Feed-in” functionality
- Possibility to manage reactive power
- Wide operating input range from 140V to 1000V also suitable for small-sized string systems

BLOCK DIAGRAM

3PH 60KTL-V3/3PH 80KTL-V3

Three-phase string inverter

- Maximum yield 98.7%
- Up to 6 independent MPPTs
- Updates and diagnostics via USB
- 5 or 10 year ZCS warranty
- “Zero Grid Feed-in” functionality
- Possibility to manage reactive power
- Wide operating input range from 180V to 1000V

TECHNICAL DATA	3PH 60KTL-V3	3PH 80JKTL-V3
DC Input data		
Typical DC power*	72000W	96000W
Maximum DC power for each MPPT	18000W (550V-850V)	24000W (550V-850V)
No. of independent MPPTs/N.o of strings per MPPT	6/2	
Maximum DC input voltage	1100V	
Start-up voltage	200V	
Nominal DC input voltage	620V	
MPPT DC voltage range	180V-1000V	
DC voltage range at full load	550V-850V	
Maximum input current for each MPPT	32A	40A
Maximum absolute current for each MPPT	50A	60A

3PH 100KTL-V4/110KTL-V4

Three-phase string inverter

- Maximum yield 98,6%
- Protection class of IP66
- Integrated Arc Fault Circuit Interruption and String Fault Monitoring
- Forced convection with speed-controlled cooling
- PID Recovery function available
- Class II surge protection devices (AC and DC)
- 5 or 10 year ZCS warranty
- 180V to 1000v operating range and up to 10 independent MPPT channels for enhanced configuration flexibility

TECHNICAL DATA	3PH 100KTL-V4	3PH 110KTL-V4
DC Input data		
Typical DC power*	120000W	132000W
Maximum DC power for each MPPT	20000W	
No. of independent MPPTs / No. of strings per MPPT	10/2	
Maximum DC input voltage	1100V	
Start-up voltage	200V	
Nominal DC input voltage	625V	
MPPT DC voltage range	180V-1000V	
DC voltage range at full load	500V-850V	
Maximum input current for each MPPT	40A	
Maximum absolute current for each MPPT	50A	
AC Output data		
Rated AC power	100kW	110kW
Maximum AC power	110kVA	125kVA
Maximum AC current per phase	160A	181A

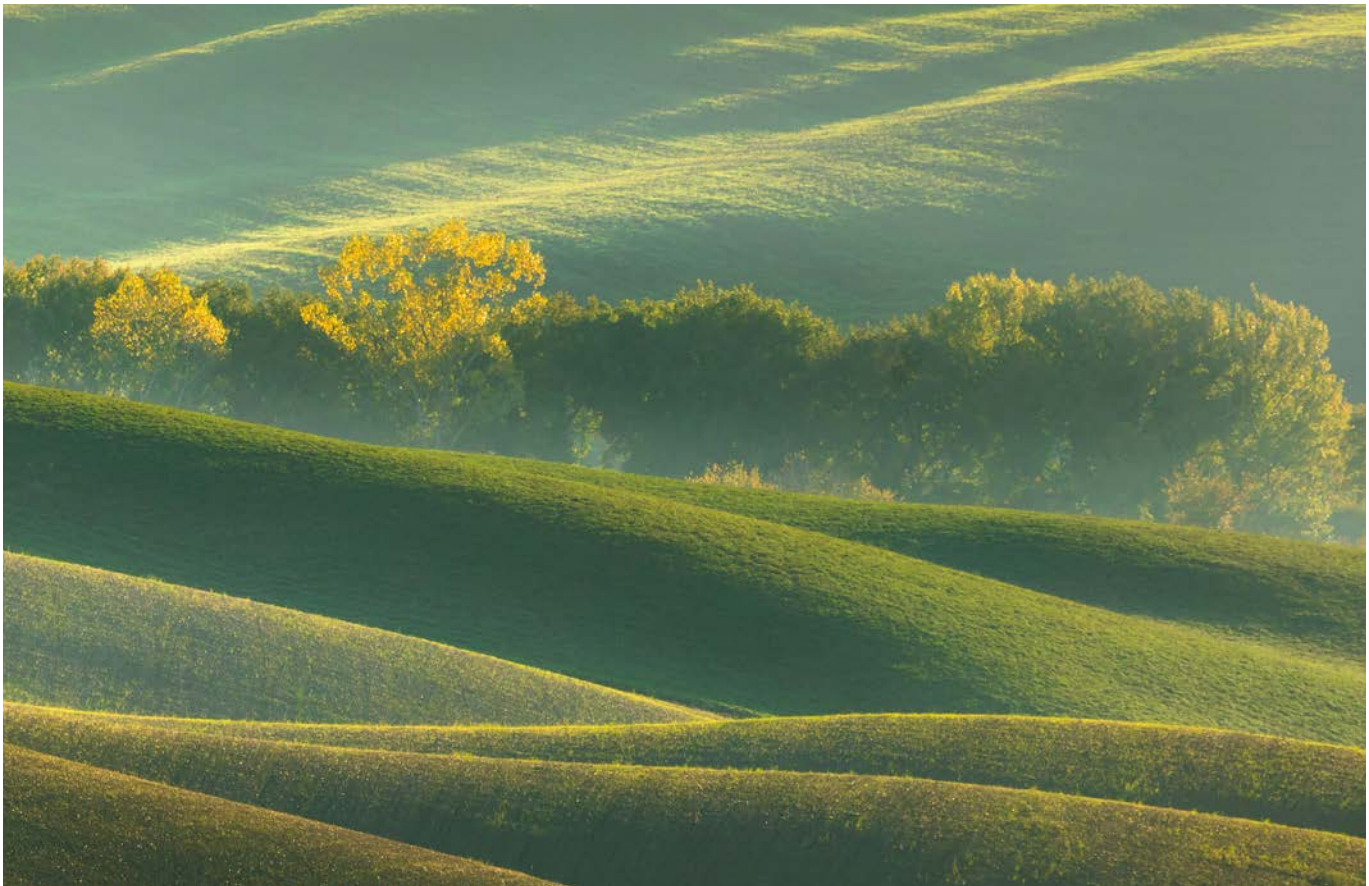
AZZURRO ZCS



Storage inverters

The **ZCS Azzurro Storage Inverters** are ideal for optimising energy independence in residential and commercial buildings. They are quick and easy to install and come with automatic configuration features.
There are two types of ZCS storage solutions: retrofit and hybrid. The first has a nominal power of 3 kW and a storage capacity of up to 25 kWh, and is designed for new installations and for retrofitting of existing ones. While the hybrid inverters have a nominal power from 3 kW to 6 kW single-phase and from 5 kW to 20 kW three-phase, ideal for new installations.
The entire range can also operate in stand-alone mode, ensuring continuity of power in the event of a power blackout.

SIMPLE AND RELIABLE

› LCD graphic display for local monitoring
› Remote monitoring system via APP for viewing consumption, PV production, energy stored and exchanges with the grid

EASY INSTALLATION

› Does not require changes or upgrades to the existing electrical system thanks to the use of an open-core current sensor

FLEXIBLE DISCHARGE SOLUTION

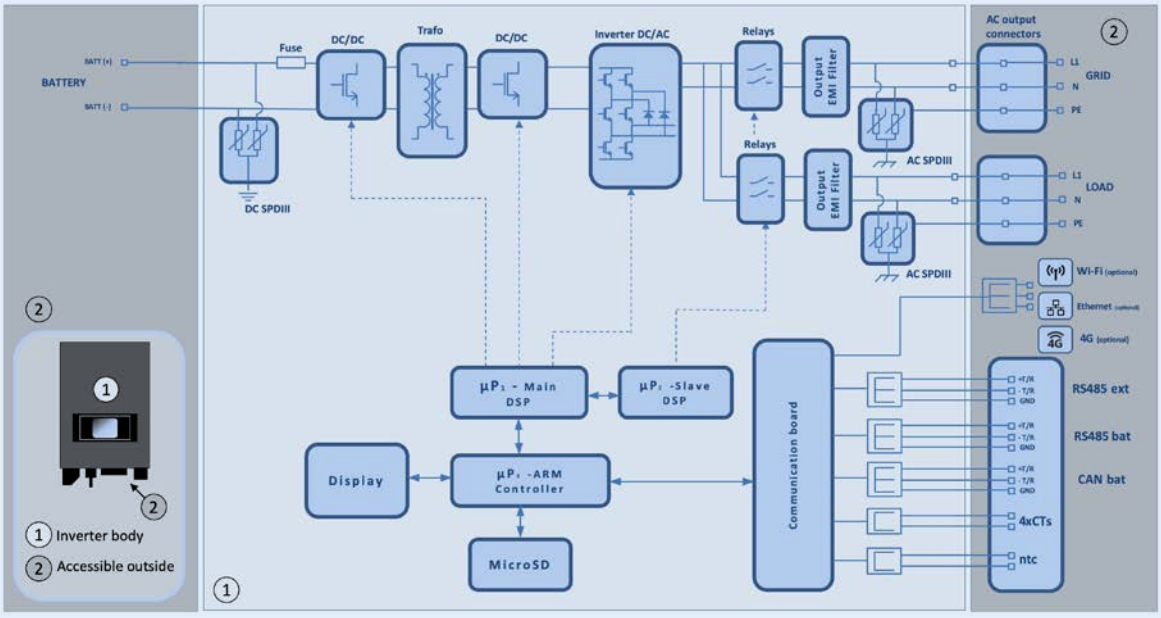
› Flexible charging/discharging management in accordance with local standards
› Maximisation of self-consumption above 80%

3000SP

Retrofit storage inverter

- System for retrofit application with energy exchange directly in AC
- Compatible with all existing inverters already connected to the grid
- Suitable for installing on both single-phase and three-phase systems
- Unit compatible with 48V lithium batteries
- Stand-Alone support mode guarantees continuity of operation in the event of a power failure through the Emergency Power Supply (EPS) function

BLOCK DIAGRAM



TECHNICAL DATA	3000SP
Battery connection data	
Type of compatible battery	Lithium-ion (supplied by Zucchetti)
Rated voltage	48V
Allowable voltage range	42V-58V
Maximum charge/discharge power	3000W
Allowable temperature range*	-10°C/+50°C
Maximum charge current	65A (programmable)
Maximum discharge current	65A (programmable)
Charge curve	Managed by the BMS
Depth of Discharge (DoD)	0%-90% (programmable)
AC input (grid side)	
Rated power	3000W
Maximum Power	3000VA
Maximum current	13A
Connection type/Rated voltage	Single-phase L/N/PE 220,230,240V
AC voltage range	180V-276V (according to the local standards)
Rated frequency	50Hz/60Hz
AC frequency range	44Hz-55Hz / 54Hz-66Hz (according to the local standards)
Total harmonic distortion	< 3%
Power factor	1 default (programmable +/- 0.8)
EPS Output (Emergency Power Supply)	
Maximum power supplied in EPS mode**	3000VA
EPS output voltage and frequency	Single-phase 230V 50Hz/60Hz
Current supplied in EPS mode	13A
Apparent peak power in EPS mode	4000VA per 10s
Total harmonic distortion	< 3%
Switch time	< 3s (programmable from display)
Efficiency	
Maximum battery charge efficiency	>95%
Maximum battery discharge efficiency	>95%
Consumption in stand-by	< 5W
Protections	
Internal interface protection	Yes
Safety protections	Anti-islanding, RCMU, Ground Fault Monitoring
Overheating protection	Yes
Overvoltage category/Protection class	Overvoltage Category III / Protection class I
Integrated dischargers	AC MOV: Type 3 standard
Battery soft start	Yes
Standard	
EMC	EN 61000-6-1/2/3/4, EN 61000-6-2/3
Safety standard	IEC 62116, IEC 61727, IEC 61683, IEC 60068-1/2/14/30, IEC 62109-1/2
Grid connection standard	Connection certificates and standards available at www.zcsazzurro.com
Communication	
Communication interfaces	Wi-Fi/4G/Ethernet (optional), RS485 (proprietary protocol), SD card, CAN 2.0 (for battery connection)
Additional inputs or connections	Input for DC current sensor connection + 3 inputs for AC current sensor connection
Data storage on SD	25 years
General data	
Allowable ambient temperature range	-30°C...+60°C (power limit above 45°C)
Topology	High-frequency isolation battery output
Environmental protection class	IP65
Allowable relative humidity range	0%.....95% non-condensing
Maximum operating altitude	2000m
Noise level	< 25dB @ 1mt
Weight	16kg
Cooling	Natural convection
Dimensions (H x L x D)	543.2mmx358mmx171.7mm
Data monitoring	LCD Display + APP
Warranty	5 or 10 years (NB: the extended warranty can be obtained by registering on th EXTENDED WARRANTY section of the zcsazzurro.com website)

* Standard value for lithium batteries; maximum operating range between +10°C/+40°C
** Power output in EPS mode depends on the type of batteries and the status of the system (e.g. residual capacity, temperature)

1PH HYD 3000 ZSS HP/1PH HYD 6000 ZSS HP

Hp series single-phase hybrid inverter

- Automatic management of the energy flows from the photovoltaic system, battery and grid
- On-board Energy Meter
- Parallel-ready
- Possibility of operation in zero grid feed-in mode
- Unit compatible with 48V lithium batteries
- Stand-Alone support mode guarantees continuity of operation and “island” operation, both from the photovoltaic source and battery in the event of power failure.
- Maximum charge/discharge power 5000W

BLOCK DIAGRAM

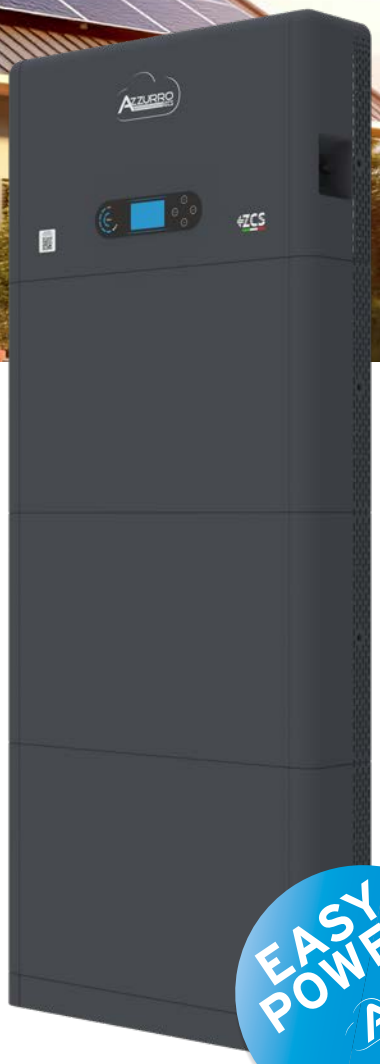
*** Standard value for lithium batteries; maximum operating range between +10°C and +40°C
**** Power output in EPS mode depends on the number and type of batteries, and the status of the system (e.g. residual capacity, temperature)

1PH HYD 3000 ZP1/ 1PH HYD 6000 ZP1

Single-phase hybrid system



- Integrated storage system, with modular installation for easy mounting
- Automatic management of the energy flows from the photovoltaic system, battery and grid
- Compact design and extremely small footprint
- Parallel-ready
- Possibility of operation in zero grid feed-in mode
- Independently managed batteries via integrated PCU (Power Control Unit)
- Stand-Alone support mode guarantees continuity of operation and “island” operation, both from the photovoltaic source and battery in the event of power failure.
- Maximum flexibility for expanding storage capacity (from 5.1kWh to 20.4kWh)

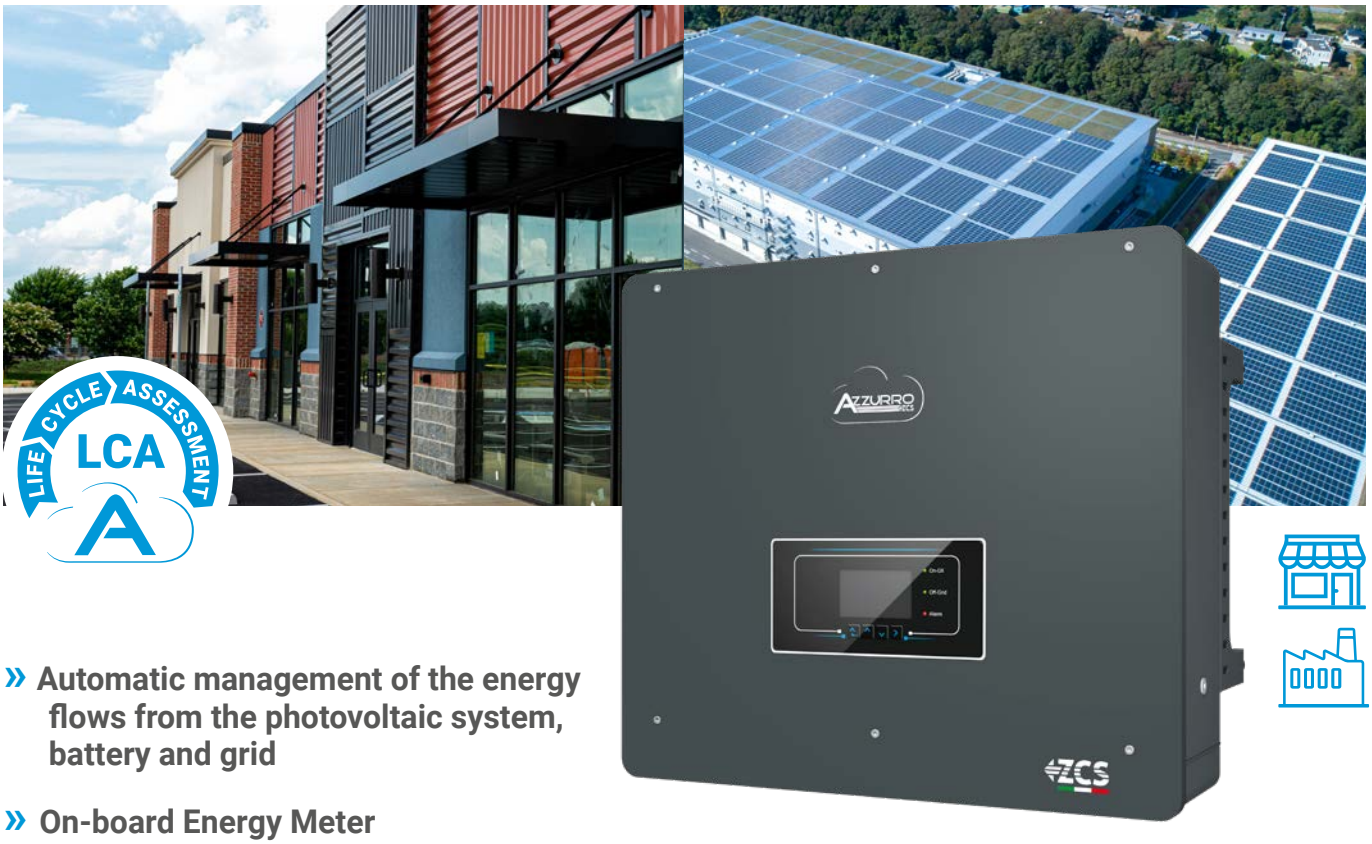
Warranty	10 years (NB: the extended warranty can be obtained by registering on the EXTENDED WARRANTY section of the zcsazzurro.com website)					

* The typical DC power does not represent a maximum applicable power limit. The online configurator available at www.zcsazzurro.com will provide any applicable configurations.
** Standard value for lithium batteries; maximum operating range between +10°C and +40°C;
*** Power output in EPS mode depends on the number and type of batteries, and the status of the system (e.g. residual capacity, temperature)

3PH HYD 5000 ZSS/3PH HYD 8000 ZSS

Three-phase hybrid inverter



- Automatic management of the energy flows from the photovoltaic system, battery and grid
- On-board Energy Meter
- Parallel-ready
- Possibility of operation in zero grid feed-in mode
- Unit compatible with high voltage lithium battery (180-750V)
- Stand-Alone support mode guarantees continuity of operation and “island” operation, both from the photovoltaic source and battery in the event of power failure.

ZCS Azzurro

LV BATTERIES FOR STORAGE OR HYBRID SYSTEMS

The **low voltage batteries** for **ZCS Azzurro hybrid inverters and storage systems** are the best solution for optimising energy independence in residential applications.
Modular and parallelable, they are the ideal devices for storage installations with **ZCS Azzurro inverters**. They can be configured automatically without the need for manual settings.
The Lithium Ion or Lithium-Iron-Phosphate technology allows efficient use even at high depths of discharge, thus optimising energy storage and reuse. Easy installation and long service life make these batteries highly efficient and practical.

EASY INSTALLATION

- Communication cables, power and battery parallel connection cables always included
- Installation on the ground or wall by means of the appropriate brackets
- Possibility of installing additional batteries
- A total capacity of up to 30kWh can be installed

ZCS Azzurro

MONITORING SYSTEMS

The ZCS Azzurro **monitoring** systems are the ideal solution for the complete control and display of all the main parameters of any PV system.

The wide range of options makes it possible to meet any requirement: from basic solutions to more complete and complex monitoring solutions.

The most complete monitoring solutions allow connecting external devices and a separate power supply unit for monitoring not only the inverters, but also the consumption of the entire system at all hours of the day and night.

SIMPLE AND RELIABLE

› Communication protocols with automatic inverters

› Possibility to monitor up to 31 inverters

EASY INSTALLATION

› Plug-and-play installation

› Easy to access and easy to configure

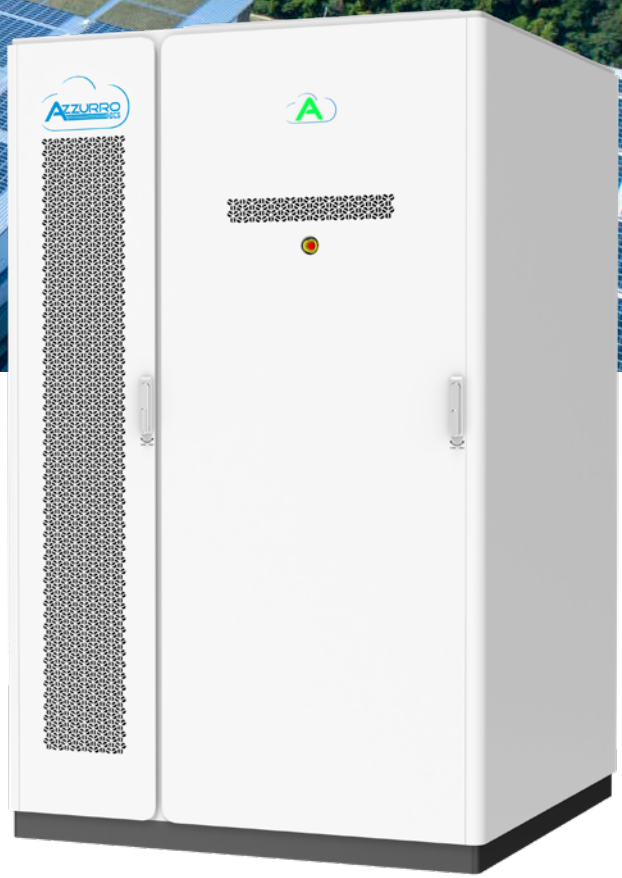
ZCS Azzurro POWER MAGIC

ZPM-215KLA-SC1/ ZPM-258KLA-SC1



POWER MAGIC

Power Magic is the new outdoor retrofit storage system designed for high-power industrial installations. The system can be adapted to meet the needs of every customer, offering power capabilities ranging from 125 kW to 750 kW and storage capacities ranging from 250 kWh to 6 MWh. It is equipped with a fire extinguishing system with integrated sensors and monitoring features, as well as liquid cooling system. Installation is simple thanks to the intuitive Plug & Play system.

- **All-in-One design with high energy density**
- **Plug and Play design for fast and cost-effective installation**
- **Modular system offering extensive configuration flexibility, ranging 215 kWh to over 6 MWh**
- **Integrated fire protection system**
- **Liquid cooling system with anti-condensing design**
- **Physical separation of electrical and hydraulic circuits to minimise the failure risks**
- **Built-in energy management system (EMS) for extensive management flexibility**
- **Constant monitoring and alarm logging for fast and effective management of the entire system**

Grid connection standard	Connection certificates and standards available on www.zsazzurro.com	
General information		
Allowable ambient temperature range	30°C...+50°C (power limit above 45°C)	
Storage ambient temperature range	-30°C...+60°C	
Environmental protection rating	IPS5 (outdoor installation)	
Allowable relative humidity range	0%.. 100% (non-condensing)	
Maximum operating altitude	<4000 m (power limit above 2000m)	
Complete Cabinet Storage Weight	<2.5t	<2.8t
Only-Battery Cabinet weight	<2.2t	<2.5t
Cooling	Integrated liquid cooling	
Dimensions-(HxW×D)-Complete Storage Cabinet	2320mm*1450mm*1350mm	
Dimensions (HxWxD)-Only Battery Cabinet	2320mm*1000mm*1350mm	
Installation	Outdoor ground installation	
Connectivity	Ethernet, local Bluetooth for configurations	
System modularity		
Battery Cabinet Extension	From 1 (215kWh) to 3 (774 kwH) additional Battery Cabinets in parallel	
Storage Cabinet Extension	From 1 (125kW) to 5 (625kW) additional Storage Cabinets in parallel (Junction Box required)	

TECHNICAL DATA	ZPM-215KLA-BC1	ZPM-258KLA-BC1
Battery Connection technical data		
Technology and battery capacity	Lithium Iron Phosphate/280Ah	
Total battery capacity (per cabinet)	215kWh (5 pack)	258kWh (6 pack)
Battery pack rated voltage	768V	921.6V
Battery voltage operating range	680V-864V	734.4V-1036.8V
AC power to battery capacity ratio	≤0.5	
Protection		
Fire suppression	Triple safety level: Perfluorohexanone gas with battery module-level emission Perfluorohexanone gas with cabinet-level emission Water jet hydrant (optional)	
Additional safety systems	Gas emission openings and automatically opening top hatch	
Anti-corrosion level	C3	
Standard		
Certifications	IEC 62619, UN38.3	
Grid connection standard	Connection certificates and standards available on www.zsazzurro.com	
General information		
Allowable ambient temperature range	30°C...+50°C (power limit above 45°C)	
Storage ambient temperature range	-30°C...+60°C	
Environmental protection rating	IP55 (outdoor installation)	
Allowable relative humidity range	0%...100% (non-condensing)	
Maximum operating altitude	<4000 m (power limit above 2000 m)	
Battery Cabinet Weight	<2.2t	<2.5t
Cooling	Integrated liquid cooling	<2.5t
Dimensions (H*W*D) Battery Cabinet	2320mm*1000mm*1350mm	
Communication interface	CAN, RS485	
Installation	Outdoor ground installation	
System modularity		
Battery Cabinet Extension	From 1 (215kWh) to 4 (774 kwH) Battery Cabinet in parallel for PCS

AZZURRO ZCS

INNOVATIVE SOLUTIONS
FOR YOUR
ENERGY INDEPENDENCE

Charging stations for electric vehicles

The ZCS Azzurro charging stations rang3e is designed to ensure a n efficient, fast, sustainable and smart charging for any type of electric vehicle.

They are available in **5 models**, both in single-phase and three-phase versions, they are the ideal solution for residential, commercial and industrial systems.

The ZCS Azzurro charging stations can be **fully connectable** to any existing photovoltaic system. The result is a better optimization and control of energy.

In addition, the entire range is equipped with the innovative **ZCS Predictive Energy Intelligence** system, which allows to manage energy flows in a predictive way with the guarantee of optimal use of available resources.

ZCS Predictive Energy makes it possible to:

PREDICT
Predict the amount of power produced based on weather forecasts.

DISTRIBUTE
It optimally distributes the energy produced between the car and the house, in relation to the actual needs.

OPTIMISE
Optimise energy withdrawal from the grid

7KW & 22KW

Wallbox

» Innovative

- Tempered glass panel, modern design
- Commercial use with control via App

» Smart

- Wireless (Wi-Fi), Ethernet
- OCPP communication protocol with CMS
- Smart operation via App and cashless payment

» Safe and secure

- Type-A RCD and 6m A DC residual current protection
- MID-certified energy meter with accurate measurement

» Flexible

- Type 2 universal socket, optional with charging cable
- App Operation / RFID Authentication / Plug & Play
- Wall mounting / Floor installation

DOMESTIC AND COMMERCIAL USE

Download the App and register.

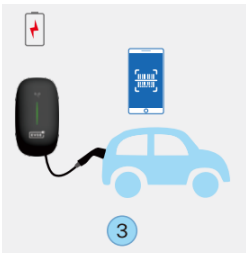
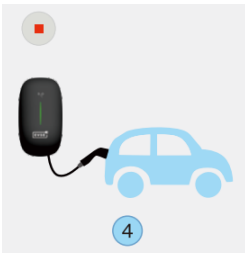
Swipe the RFID card to start charging.



The electric vehicle is charging.



Swipe the RFID card again to stop charging.

60kW & 120kW

EV-Charger

» High efficiency

- A battery charger with two outputs that charge simultaneously
- Two CCS2 DC connectors with output up to 60 kW
- Constant power from 300 to1000 voltage, less heat with lower current

» Smart

- Ethernet and Wi-Fi communication supported, 4G optional
- Smart control via App

» Flexible option

- Operation by App/RFID Authentication/Plug&Play
- High protection rating of IP54

» Safe and secure

- Type-A RCD for residual current protection
- MID-certified AC meter
- ISO 15118 prepared for advanced Plug & Play operation

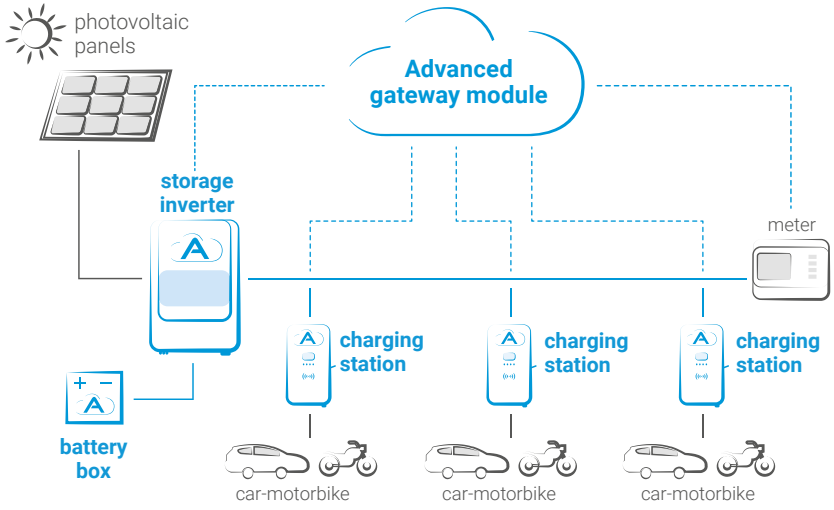
ZCS Azzurro

ADVANCED GATEWAY MODULE

ZCS GATEWAY is the innovative Gateway that allows connecting up to 10 wallboxes via Wi-Fi or Ethernet to a portal for monitoring consumption, or directly to third-party portals that allow billing the energy used for charging. ZCS GATEWAY is useful in applications where the energy used to charge vehicles needs to be measured and monitored, and also for systems that require authorisation to recharge.

PARKING USE



TECHNICAL DATA	ZVM-GATEWAY
Dimensions	125.3 x 91.5 x 28.3(HxLxD)
Installation method	Mounted on wall near the wallbox
Power supply	CAN / external power connection
Working voltage	12-25V
Working current	500mA
Protection class	IP21
Working temperature	between -20°C and +50°C
Platform/system	Linux ARM9 system
LED indicators (left to right)	Operating status, connection to backend, connection to charger
MTBF (Mean Time Between Failures)	100,000 Hours
Protections	Anti-inversion connection
Maintenance inputs	Micro USB, UART
Data input	USB
EN-GATE v.s. Charger communication	CAN
EN-GATE v.s. backend communication	Ethernet
Internet communication protocol	OCPP1.6
Extension port	IO, TTL USART
Maximum number of chargers connected to EN-GATE	10 pieces

ZCS Azzurro

CONNEXT

The **ZCS CONNEXT** system is able to effectively supervise and control all ZCS devices. It can be connected to photovoltaic systems, storage systems and charging stations for ZCS Azzurro electric vehicles, and allows monitoring and controlling all the systems in an intelligent and predictive way.

ZCS CONNEXT interfaces with external current sensors which makes it suitable for installations where third-party inverters are present. The programmable functions allow intelligent use of renewable energies and accurate programming of the charging of storage batteries or electric vehicles.

The four programmable outputs can be used to switch on the utilities according to settable criteria. ZCS CONNEXT represents the last frontier in consumption optimisation!

TECHNICAL DATA	CONNEXT
General data	
Dimensions (H x L x D)	89mm x 105mm x 65mm (+20mm for external antenna)
Weight	300 g
Protection Class	IP20
Mounting	On DIN Bar
Power Supply	Integrated 110V-230V power supply unit
Operating temperature range	0°C...+40°C
Allowable relative humidity range	0....95% non-condensing
User interface	Graphic display
Communication ports with Azzurro devices	RS485, CAN bus
Ports for current sensor input	2
Additional input/output ports	2 DO Open Collectors, 2 clean contacts, 2 DI, 2 PT100, internal USB, Bluetooth optional
Communication with portal	2G / Ethernet (alternative)
Warranty	2 years
Consumption	< 7W

- **COMPATIBLE WITH ALL ZCS AZZURRO DEVICES**
- **CAN ALSO BE USED IN INSTALLATIONS WITH DIFFERENT BRANDS**
- **POSSIBILITY OF SETTING INTELLIGENT MANAGEMENT ALGORITHMS**
- **EQUIPPED WITH INPUTS FOR SYSTEM MONITORING SENSORS**

App **SYSTEMS**

Your photovoltaic system **always with you.**

The **ZCS Azzurro Systems App** is ideal to having control and management of your own system, in a simple and intuitive way.

- View of production and real-time energy consumption
- Control of the exchanged energy with the grid
- Checking the state of charge and discharge of the batteries
- Optimisation of energy flows

Technical **support**

ZCS Azzurro technical support is available in all countries where ZCS operates, through a network of local service centres.
ZCS Azzurro provides its customers with a support service that can be contacted:

› through the **SUPPORT** section of the website zcsazzurro.com

The ZCS Azzurro Customer Service will handle your request for assistance within 24 hours of receiving the request.

INSTALLATION AND COMMISSIONING

Would you like assistance in sizing your new photovoltaic system or in retrofitting existing systems? Are you having trouble configuring your ZCS Azzurro Inverter?
Do you have doubts on how to correctly use and install your inverter?
Contact our Technical Service Centre.

Our technical support service is able to provide assistance and support by ticket for pre-sales and after-sales requests, so our customers can receive all the information they need.

TRAINING AND EDUCATION

ZCS offers various training and education programs on various aspects relating to solar energy. The training and education sessions are organised both at the ZCS offices and externally at the premises of our distributors or in conference centres.

ZCS encourages all its customers to participate in one or more training courses, so that they are able to efficiently install the system and make it fully compliant with the applicable regulations.
The ZCS training courses normally include general and theoretical presentations aimed at developing technical knowledge on the inverters, as well as practical exercises aimed at explaining all the product features, the various applications, installation and commissioning procedures, programming, maintenance and fault identification.
The courses are open to all operators in the sector and are not limited to technical professionals.

SPARE PARTS AND ACCESSORIES

In the event of a known failure of an Azzurro inverter, ZCS will replace it with a new or reconditioned inverter. In some cases it may be quicker to simply replace some accessory parts.
Typical examples are the replacement of the fan tray in three-phase inverters, or the battery connection cables in storage systems.
On request, the ZCS Support Service will provide prices for spare parts and accessories that can be purchased separately.
For this purpose, ZCS always ensures that adequate stocks are available.

MAINTENANCE – EXTENDED WARRANTY – UPDATES - RETROFIT

The ZCS Azzurro string inverters do not require any special maintenance. Due to their long service life, however, regular inspections are recommended. ZCS offers this service at very convenient conditions, both during and after the warranty period. You can contact our offices at any time for a quotation.
Each inspection visit will include at least: a general check of the machine's operation, measurement of the parameters considered necessary to assess the overall status of the system and updating of the software to the latest version available.
At the end of the visit, a report is issued certifying the result of the visit.

REPAIR AND REPLACEMENT

At the sole discretion of ZCS, faulty inverters can be replaced with new or so-called reconditioned machines.
The reconditioning of the inverters, which is carried out under the full responsibility of ZCS, restores their original condition of efficiency and performance.
After a total inspection of the machine, its complete cleaning, and an analysis of any components to be replaced, the inverter is subjected to a complete cycle of tests.
In all cases, the replacement inverter, whether new or reconditioned, will be covered by a warranty at least equal to the warranty period remaining on the replaced inverter.

SERVICE PARTNERS

ZCS can intervene within 24 hours in any region of Italy and in any country in Europe.
ZCS adopts a relationship of trust with the installers it engages to carry out repairs at the customers' premises. In the absence of an installer responsible for the system, ZCS guarantees the assistance service through its own direct personnel or through local service partners.

ZCS Azzurro

END OF LIFE

The **ZCS AZZURRO** products are constantly evolving and always being updated. ZCS ensures ongoing technical support and warranties on its entire product range. To receive information on end-of-life models, please contact your distributor or visit **zcsazzurro.com**
